# CSS COMMENTS

CSS comments

---

1. **CSS comments** stop the CSS style rules written within a CSS stylesheet, from being processed while displaying an HTML document in browser.

2. **CSS comments** start with "/*" and end with "*/". You can use this both

3. **CSS comments** can be placed anywhere in a CSS stylesheet.

4. **CSS comment** can not be nested, i.e. a comment can not hold another comment within it.

5. You can use HTML style comment ("<!-- .... -->") in a CSS stylesheet also. But it does not have anything to do with CSS comments. This is allowed just to hide style rules form pre-HTML 3.2 user agents (e.g. browsers).

Pictorial presentation of CSS comment

/*	CSS style rule(s)	*/

Now, look at the example bellow :

view plainprint?

```
1. <!DOCTYPE HTML PUBLIC "-
   //W3C//DTD HTML 4.01//EN" "http://www.w3.org/TR/html4/strict.dtd">
2. <html>
3. <head>
4. <meta http-equiv="Content-Type" content="text/html; charset=iso-8859-1">
5. <title>CSS syntax example</title>
```

```
6.  <style type="text/css">
7.  p {
8.  /*background-color: #FDD017;
9.  color: #003366;*/
10. font-weight: bold;
11. width: 500px;
12. /*padding: 5px; */
13. }
14. </style>
15. </head>
16. <body>
17. <p>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Pellentesque a

Style ▼ | Computed | Layout | DOM

```
p {
    font-weight: bold;
    width: 500px;
}
```

CSS code. Commented part is not processed.

Conditional comments are very useful for loading a separate stylesheet for IE.
