“Instructor is well informed with excellent material content. Well presented with good practical and theoretical content”.
Derek O' Connor – Bausch

Dear Colleague

IDC Technologies continues to provide you with the most up-to-date engineering and technical workshops available today. Don't miss the opportunity to attend one of these internationally renowned workshops already attended by more than 200,000 satisfied engineers and technicians:

▪ **Practical Boiler Control and Instrumentation**

This workshop focuses on the control and safety requirements applicable to most types of boilers from small gas-fired units to large multi-fuel installations. You will learn how control and instrumentation is designed to manage the main variables. The essential safety requirements are identified and explained in accordance with the latest safety standards..

▪ **Practical Power System Protection**

How safe is your workplace? Every year, thousands of electrical accidents occur in Australian businesses. This workshop will help you and your company save money, and more importantly, save lives. Increase your career prospects and learn the fundamentals of power protection and its application to your workplace.

By attending any of these workshops you will also receive a **FREE** reference Manual, our distinctive **Hands-On Approach** to training as well as an Early Bird Discount if you register in time!

To register, please complete the registration form and fax it to us at 1800 434 4045

Yours sincerely,

Steve Mackay

Steve Mackay – FIE (Aust), CP Eng, B.Sc (Elec Eng), B.Sc (Hons), MBA
Technical Director

P.S. Remember, register your place by the Early Bird Date and receive a 5% discount off the full price workshop fees!
